REPRESENTATIVE LEADERSHIP EXPERIENCE

Cross-border investment and market entry

Converted international expansion priorities into executable programs by integrating market intelligence, partner selection, transaction support and institutional alignment across industrial, technology, energy and service sectors.

Multi-country operating transformation

Established clearer governance, management routines and commercial priorities for regional activities, aligning leadership teams and external stakeholders around accountable execution.

Enterprise technology at scale

Managed enterprise SaaS solutions at Tencent with portfolio revenue reaching USD 32 million, balancing product direction, client requirements and commercial responsibility in Greater China.

Public and institutional engagement

Represents complex investment and competitiveness issues in television, press, keynote and public-private settings, translating market realities into decision-relevant perspectives.
